

Kimhoichong, Vaccinator

The MOMENTUM Routine Immunization Transformation and Equity Project, supported by the U.S. Agency for International Development (USAID), ensures equitable vaccination to vulnerable, hard-to-reach, and marginalized communities.

Kimhoichong is associated with the Project and works to ensure last mile delivery of COVID-19 vaccination to the hard-to-reach areas, come rain or shine.

NAGALAND

In Nagaland, the Project has engaged local non-governmental organizations like ISRN to build vaccine confidence amongst vulnerable and at-risk groups that includes pregnant and lactating mothers, the elderly community, and others located in difficult to reach, tribal belts.

Non-motorable roads do not stop Kimhoichong and her team and her to ensure COVID-19 vaccination for communities who live in remote areas.

Kimhoichong and her team members remain undaunted by challenges to reach inaccessible populations in Nagaland.

USAID
FROM THE AMERICAN PEOPLE

The team works on conducting vaccination drive and create awareness for the community in the hard to reach areas of Nagaland to ensure wider vaccination coverage in the region.

MOMENTUM Routine Immunization Transformation and Equity is funded by the U.S. Agency for International Development (USAID) as part of the MOMENTUM suite of awards and implemented by JSI Research & Training Institute, Inc. (JSI) with partners PATH, Results for Development, Accenture Development Partnerships, Gobe Group, The Manoff Group, and CORE Group under USAID cooperative agreement #7200AA20CA00017.
